Maths Olympiad

Southern Africa 2025

4 - 8 August

Dear Parent,

Matific, an award-winning digital maths platform grades R-9, is hosting an exciting online competition - and our school is joining in! The Standard Bank - Matific Maths Olympiad is a fun and powerful way to:

Create a love of maths

Close learning gaps

Reduce maths anxiety

Boost confidence and
maths results

By completing interactive maths activities and earning stars, your child will boost their maths skills and help their class and school compete for trophies and national recognition.

Participation is completely FREE.

Your child will take part at school, and they're also encouraged to play at home to keep progressing and earn even more stars. Let's make maths fun and meaningful!

Exciting prizes are up for grabs!

All students get certificates. Vouchers worth R500 will be awarded to the top 3 students in each grade nationally.

The best part about this competition is that screen time becomes meaningful learning time. In fact, an academic study found that Matific can improve maths test results by 34%.

Wishing you and your child an enjoyable experience with The Standard Bank - Matific Maths Olympiad!

Sincerely,

Your child's teacher
